One Aviation Team

RPPOB Program

- Commonly referred to as the Bailment Program.
- Allows a domestic business to purchase or borrow replenishment parts
- DSCR RPPOB Program Steps
- Reverse Engineering Process
- Alternate Source of Supply
- Encouraging competition
- Analyze technical data

Reverse Engineering Process

- Interested in reverse engineering?
- We provide you cost to purchase the sample(s)
- You review the data and determine if you wish to proceed, Military Service concurrence is required prior to Sales or Loans
- After your acknowledgement to proceed, we forward you a contract to sign for the purchase of the item
- We will ship the item to you and you shall conduct the reverse engineering at your own expense
- You shall prepare a SAR per <http://www.aviation.dla.mil/userweb/sarguide.doc> and submit it to us

Virtual Parts Catalog & Display Room Part 1

- The Parts Catalog & Display Room consists of multiple items to be reversed engineered. Each item has a minimum of \$40,000 annual demand and is typically a sole source item
- Interface with contractors
- Many businesses locate potential reverse engineering items via our Virtual Parts Catalog
- Encouraging competition on these items will reduce acquisition costs

Virtual Parts Catalog & Display Room Part 2

- We show contractors how to view the DLA Internet Bid Board System (DIBBS) and other computer systems that allow businesses to identify annual demand and other indicators that may be helpful
- Visit our Virtual Parts Catalog at;
