**MEMORANDUM FOR JOINT LOGISTICS COMMANDERS  
JOINT AERONAUTICAL COMMANDERS' GROUP**

**SUBJECT: Proposed Instruction on Management of Aviation Critical Safety Items (CSI)**

In response to JACG Memorandum dated January 22, 2004, this office coordinated review of the subject instruction for the Defense Logistics Agency. The agency concurs with the instruction as written upon incorporation of the following changes:

- Remove the document date for reference in paragraph 1.16. (DLAI 3200.1...) to be consistent with other references, and to allow for updates to the reference without requiring an update to the JACG Aviation CSI Instruction.
- Delete paragraph E.2.c. regarding Service specific sourcing determinations related to internal class justification and approval letters on propulsion flight safety critical parts.

Please contact Mr. Robert J. Schaffer at (804) 279-3841 or e-mail Robert.Schaffer@dla.mil if you have any questions or require clarification of this response.
