SAFETY ALERT

Date: May 22, 2012

To: Users of the Terminal Procedures Publication Alaska Volume (ATP).

From: Aeronautical Navigation Products (AeroNav Products)

Subject: Correction to TPP Alaska for **May 31, 2012** Effective Date

The 31 May 2012 Terminal Procedures Publication (TPP) Alaska Volume Index of Terminal Charts and Minimums in the front of the volume is erroneously depicting the index for April 5, 2012 resulting in various types of inaccurate information on pages K1 through K15.

The May 31, 2012 Alaska TPP index does not indicate new charts or revised chart titles. In addition, cancelled charts are still appearing in the index and incorrect page numbers may be identified for some charts.

All the procedures published in the Alaska TPP are current.

To obtain the correct index, you can download it from the AeroNav Products website at: http://aeronav.faa.gov/content/aeronav/safety_alerts/AK1INDX.pdf
