

NOTICE FAA PRODUCT SUBSCRIBER

The National Geospatial-Intelligence Agency (NGA) will no longer provide the following Federal Aviation Administration (FAA) aeronautical books, charts and publications ordered after June 30th, 2012. Safety of Navigation will not be jeopardized because NGA provides suitable substitutes or there is no established DoD requirement for the FAA product.

The table below identifies eight FAA products that will no longer be available through your DLA DoDAAC and suitable DoD substitutes. If you still want the FAA products listed in the table you may purchase them directly from the FAA.

FAA Products <u>Not</u> Available to be Ordered	Suitable DoD Substitutes
Grand Canyon VFR Chart	DoD Tactical Pilotage Chart (TPC).
World Aero Charts	DoD Operational Navigation Chart (ONC).
Aero Chart Users Guide	Available on-line for review/download.
Gulf of Mexico & Caribbean VFR Plan Chart	Not required.
North Atlantic Route Charts for FAA Controller Use	Not required.
Pacific Route Charts for FAA Controller Use	Not required.
Pacific Chart Supplement	DoD Pacific Supplement. Additional information available on-line.
US IFR/VFR Low Altitude Planning Chart	Not required for VFR. IFR is covered by the US Enroute Low charts.

To set up an FAA AeroNav Account, Government and military units must directly contact the FAA AeroNav Services to create a User ID and Password: Toll Free (within the U.S.) 1-800-638-8972, (outside the U.S.) 301-436-8301. Once established, units may purchase, at reduced rates, from the FAA AeroNav website <http://www.naco.faa.gov> by clicking Online Ordering. Log in and shop from the AeroNav Services Online Catalog by clicking the Add to Cart, Buy Now, or Subscribe. When finished shopping, click the Checkout button to pay.

If you have questions concerning the above please contact one of the following: Army 1-571-557-4600, Navy and Marines 1-571-557-4900, Air Force and non-military customers 1-571-557-4700.
