

DSCR's Industrial Gas Support Program for Europe

(This program does NOT include Class 1 Ozone Depleting Substances (ODS)!!! – Continue to use established ODS Program procedures and Points of Contact)

Defense Supply Center Richmond (DSCR) awarded an industrial gas support contract to International Gas and Services (IGS) in Willebroek, Belgium, to supply industrial compressed and liquefied gases to Military and Federal activities in Europe. The European Industrial Gas Support Program includes:

- Supplying various types and grades of compressed and liquefied gases in a variety of cylinder sizes.
- Delivering full cylinders to the customer's site.
- An exchange program that includes delivering full cylinders and picking up empty cylinders from the customer's site.

NOTE: Currently, the exchange program is only available in Germany. An exchange cylinder means, at the time of delivery, the swapping a full cylinder for an empty cylinder. The cost of an exchange cylinder is less than the cost of the full cylinder since the customer is not paying for a cylinder with every order.

Continue to order your Industrial Gas requirements using your Service/Government agency automated ordering systems using MILSTRIP/FEDSTRIP (Standard Form 344) or shop online through DoD E-Mail.

POC: For additional information go on-line at: <http://www.dscr.dla.mil/customerassistance.asp> or call Gases and Cylinders IST Lead, at (804) 279-4257 (DSN: 695) or Administrative Contracting Officer, at (804) 279-4563 (DSN: 695).
